STANFORD, KY. TUESDAY, JANUARY 19, 1904. 8 A M.

NO. 92

THE Central Record has this to say about an old Stanford boy: "The Record, together with all lovers of Lancaster's advancement, wishes to congratulate the city council upon the appointment of Mr. James A. Beazley as superintendent of the water works. At a meeting Friday night Mr. Beazley's resignation as councilman was accepted and he was appointed to the above position and at once entered upon his duties as such. Lancaster has never had a councilman who entered into his duties with the vim and push that Mr. B. has shown. He never stood back when some of the usual obstructions endeavored to bluff and balk a move for the town's betterment. He knew his duty and had the backbone to do it. He is the right man for superintendent of the water works, yet The Record regrets that it was necessary for him to resign from the council, in fact the resignation of he and Judge Robinson deprived Lancaster of the best and most fearless street committee the town ever had. Mr. Beazley has been connected with the putting in of water works and knows every detail of the work, and having looked after all the minor details, is thoroughly posted on every crook and turn of the business."

Louis James' Nose.

Louis James tells a story of a time when he was brought into grave peril on account of his nose. He was going to Leadville in the early days on a stagecoach which was held up by highwaymen. The passengers were ranged in a row outside with their hands up, the familiar attitude being forced by a gun in the hands of one of the gentlemen of the road while the others went through the various pockets at their leisure.

In the midst of the ceremony Mr. James' nose began to itch with that persistence calculated to drive one to insanity if not relieved. Involuntarily his hand began to lower itself to the seat of trouble.

"Hands up there!" called the man behind the gun.

His hand shot back into place but in a moment began to lower itself again. "What's the matter with you?" inquired the bandit. "Are you anxious to become a lead mine?"

"My nose itches so I can't stand it any longer," said Mr. James. "I've simply got to scratch it."

"No you ain't," said the agent, "because I'll do it for you."

With which he proceeded to scratch the actor's nose with the muzzle of his shot gun.

DO NOT DOSE THE STOMACH.

Cure Catarrh by Nature's Own Method—Every Breath of Hyomei Brings Relief.

Nearly every one who has catarrh knows how foolish it is to try and cure it by drugging the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete Hyomei outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a life time, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

G. L. Penny has sold a great many Hyomei outfits and the more he sells the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomei does not cure.

W. G. Jones, of Garrard county, has bought out A. J. Howard's general store, and will open it immediately after the invoice.—London Democrat.

MIDDLEBURG.

Prof Davis' school at this place is progressing nicely. There are nearly 100 in attendance.

Preston Fogle who has been visiting his father's family, has returned to his place of practice in Venita, O. T. Jno. W. Swope went to Lexington Tuesday to look out for a position. Miss Shannon, who has been spending the holidays with relatives here, has returned to her home at Junction City. Mrs. Richard McDaniel and son, Clarence, are visiting relatives at Burnside.

There is no doubt but what F. M. Simms, who lives some two and one-half miles north of here, has a well of the finest mineral water to be found anywhere. An analysis of the water shows it to contain 181 grains of solid substance to the gallon, all of which have great medicinal properties. It is what is known as saline sulphur and the supply is unlimited. The water is being constantly used by a number of persons, who were in feeble health and has proven beneficial in every instance. Mr. S. is expecting to improve the well before the spring and summer season so as to be able to supply all the demands for the water. During the one year it has gained a reputation as a medical water unsurpassed by any water known in this section of the country.

Domestic Troubles.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around. Much trouble they save by their great work in Stomach and Liver troubles. They not only relieve you, but cure. 25c at Penny's drug store.

MILLIONAIRE'S POOR STOMACH.—The worn out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaires unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over 35 years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles 25c; regular size, 75c. At all druggists.

JOSEPH E. ROBINSON.

Candidate for the democratic nomination for county attorney of Garrard, is an old Lincoln county boy and his friends here are anxious to see him made the standard bearer. Seven years ago he moved to Lancaster and begun the practice of law, at which he has been very successful. He at once took a hand in politics and has done valiant service for the democratic party since. He has been campaign chairman four years and has given liberally both of his time and means for the success of the party. Mr. Robinson has been one of those working democrats who has made it possible for a democrat to win in the erstwhile rock-ribbed county of Garrard. He is an honorable, high-toned gentleman and if he is nominated and elected will make Garrard a county attorney of whom she will have reason to feel proud.

LANCASTER.

The exact amount of Garrard's taxable property is \$4,857,906, an increase of \$171,383, over the assessment of 1902.

The people are enjoying electric lights, telephones and water works system. Now the next thing is a hemp factory; it is needed, let us have it.

The telephone system running between New Orleans and Chicago was completed last Thursday. This is one of the best and most expensive lines in the U. S., costing \$1,000 per mile.

J. M. Logan has taken a partner in his business, G. E. Smith, of Carlisle. Mr. Smith enters the business March 1. This firm contemplates erecting a store room on the Garrard Hotel site and will add to their dry goods business other features of interest to Garrard people.

Miss Theo Hemphill has returned from Hamilton College, having been excused from examination. Mrs. Jacob Joseph entertained the Ladies Aid Society Friday afternoon. Harry Hamilton has accepted a position at the New Mason Hotel.

J. Mort Rothwell is back from Frankfort, where he has been trying to interest the Legislature in a fish and game law. He was assured that the measure would become a law. It provides for a rabbit law with open season, the same as the bird law. It curtails the sale and use of dynamite, that has done so much toward destroying the fish, and requires the retailer to keep a record of each sale, to whom sold and for what purpose. Our sportsmen here are very anxious to see such a law made, as this, as well as all other counties will be provided with a game warden to look after the interest of the sportsmen.

Now that the water works have been completed, some of the facts and figures in the case will be of interest to our people: The reservoir's capacity is 22,000,000 gallons, covering six acres at an average depth of 13 feet; 1,000 feet of hose has been received, the cost of which is \$700; a hose wagon has been ordered and ladders also. A tower for drying the hose will be erected in the open space next to the court house. In front of the court house will be built a handsome fountain with watering troughs for the comfort of man and beast. The lake which is to be well stocked with fish of the small-mouthed bass variety, will afford enjoyment and recreation for our people. The entire cost of this great enterprise will be a little more than \$30,000, and too much praise can not be given to those who pushed this matter to its grand consummation.

Charles Finch, the third Negro tried at Hopkinsville for the murder of the unknown white man near Pembroke, was given the death sentence.

Happy As A Duck

They answer the purpose of a lightweight overcoat and are very comfortable for moderate wear when a heavy coat is too warm.

THE GLOBE.

How to Save FUEL.

Briefly—buy a

COLES' HOT BLAST COAL STOVE.

It cuts the fuel bill in two because it burns the gas arising from burning coal. Gas goes via the chimney in other stoves. COLE'S HOT BLAST really makes \$3.00 soft coal work like \$9.00 hard coal. Come in and see that smokeless feed door. Does away with dust, dirt and smoke in the house.

Our cutlery has a great reputation in this neighborhood because while our prices are cheap the goods are not.

ON the United States pension rolls of the Topeka agency is the name of a man who has served in three wars and is 100 years old. He is Thos. E. Sauls, of Webb City, where he conducts a little shoe shop and makes a living in spite of his 100 years. He was a soldier in the Seminole, Mexican and Civil Wars. In the Civil War he was a sergeant of the Sixth Kansas Cavalry. This was after he had passed 50. After the Mexican war he represented the county of his nativity in the Tennessee Legislature. While he lived in Tennessee he was a lawyer. His pension is \$30 a month and was granted by a special act of Congress.

THE republican members of the Kentucky Legislature, in their desire to compliment Mark Hanna, may offer all the resolutions they please inviting him to address that body while in session. They all know that there is not the slightest hope of it being adopted. No democrat who loves his party could vote to bring Hanna to Kentucky to address Kentuckians upon political matters, especially in the face of a presidential contest. Of course, it may be a bluff just because the democrats had invited Gorman, but what is the matter with the "rough rider," that the republicans did not want to invite him?

OVER 700 persons were killed by lightning in the United States in 1903, and between 700 and 800 are probably killed each year. East of the 100th meridian thunder storms occur all over the country, but west of it, except in the Rocky Mountains, the frequency of storms diminishes until on the Pacific coast there are practically none. The greatest number of storms occur in Florida, in the middle Mississippi Valley and the middle Missouri Valley. The greatest number of deaths in any single State was 186 in Pennsylvania. Ohio came next with 135, Indiana, Illinois and New York having 124 each.

UREY WOODSON, editor of the Owensboro Messenger, is in New York and in an interview he told one of that city's papers that Mr. Bryan would nominate the next democratic national convention; that he would dictate the platform, and that, while he will not himself be a candidate for President, he will not allow the nomination of anyone antagonistic to him or his views. Whether or not the national committee from this State knows what he is talking about we shall see when the democrats meet at St. Louis July 6.

THE Bourbon county representative in the Legislature has offered a bill redistricting this appellate district. It takes out Clay, Laurel, Knox and Owsley, and adds Clark and Estill. The object of the change is not as apparent as the folly of it, unless some friend of the author of the bill is to be benefited. The district, as it stands, gave a democratic majority of 4,916 last year and certainly the Bourbon statesman does not desire the change made from fear of the democrats losing it.

THE remains of Gen John B. Gordon were laid to rest in Oakland cemetery in Atlanta and public exercises were held in honor of the dead hero at the Capitol and in the Presbyterian church, after which thousands, including Confederate veterans, governors and many public bodies in Atlanta, followed the remains to the grave.

THE new year is proving disastrous to ex-governors, four having died so far. They are Ex-Govs. Gordon, Brown, Foster and Bushnell.

GEN. JOHN B. GORDON'S memory will be honored with a monument to be erected by the people of the South. The question was opened in Atlanta, and received the endorsement of every one to whom it was mentioned. The enthusiasm which greeted the undertaking virtually guarantees that it will be done.

EX-CHIEF JUSTICE GUFFY, who is now a member of the Legislature, has introduced 40 odd bills this session, which is less than two weeks old. One of two things seems certain—either the old judge found the lack of many laws while on the bench, or he is in his dotage, more likely the latter.

POLITICAL.

The republican editors of Missouri have declared unanimously for President Roosevelt.

T. Porter Smith has announced for the democratic nomination for Representative of Bourbon county.

The Kentucky House passed the World's Fair bill, carrying an appropriation of \$75,000, by a vote of 71 to 14. William Jennings Bryan will, it is claimed, soon assume charge of a new daily to be started in St. Louis by Wm. R. Hearst.

Senator Bailey, of Texas, declares he will retire from public life rather than vote for the ratification of the Panama canal treaty.

The Senate committee of Pacific Islands favorably reported a bill to pay former Queen Lilioukalanui \$200,000 for her claims on the Hawaiian crown lands.

Chairman Hanna issued a formal call for the republican national convention to be held in Chicago June 21 for the purpose of nominating candidates for President and Vice-President.

Charles B. Sullivan, in a card in the Woodford Sun, formally announces his candidacy for the democratic nomination for Representative in the Legislature from Woodford county. A primary will be held February 20.

That the Cantrill School Book bill will be passed by the House in its essential features seems to be a foregone conclusion. The caucus committee went over the bill and agreed to recommend it with some slight changes, to the joint democratic caucus Wednesday night.

A Frankfort dispatch says: "J. Mort Rothwell, of Garrard county, was here preparing to have introduced a bill providing for a State Fish and Game Warden, at a salary of \$1,500 a year, to be paid for out of fees for hunters' license, the warden to be appointed by the governor."

Dr. W. Godfrey Hunter is laying plans to capture the republican party machinery in this State with a view to sending to the Chicago convention an unopposed delegation which will vote for Senator Marcus A. Hanna for the presidential nomination if the opportunity presents itself.

After several hours of debate and parliamentary skirmishing in the State Senate Friday, a substitute for the Cantrill and Gillenwater School Book Bills was passed by the unanimous vote of the 37 members of the Senate. It is believed that with two or three amendments the bill will pass the House. The provisions of the bill seem to be acceptable to most of the democratic legislators.

CLIMATIC CURES.—The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectation in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles 25c; regular size 75c. At all druggists.

It's the most certain cure in the world for all throat and lung troubles. Guaranteed bottles 50c and \$1. Trial bottles free at Penny's drug store.

THE entertainment given by the Fifth Grade—Mrs. R. S. Eubank teacher—in the Graded School chapel Friday evening was highly creditable and thoroughly enjoyable. Thirty-four of the pupils told the interesting story of Jonathan in a way that elicited much applause. The musical part of the program was of a high order.

THE court of appeals has affirmed the Boyle circuit court in the case of the L. & N. railroad vs. Mary Vancars, dail's administrators. This is the second appeal and the court sustains the damages of \$2,500 for the death of the child. Mary Vancars, a girl about 10 years old, was run down and killed by an L. & N. train on the Knob Lick bridge about three years ago.

HAND MANGLED.—John G. Walls, brother in law of Dolph Parsons, of this place, met with a horrible accident at John Traylor's distillery late Thursday evening. His left hand got caught between the rollers of a corn mill and the wonder is that he was not killed. As it was the member was mangled and had to be amputated at the wrist. His hand made such a wedge between the rollers of the mill that it actually stopped the engine, which however, did not have on a very high pressure of steam. It took several men to turn the mill back in order that Mr. Walls' hand could be gotten out. The sufferer was brought to town, where his hand was taken off and he is doing as well as could be expected. He is an honest, hardworking young man and much sympathy is felt for him in his misfortune. Mr. Traylor said he was making him a splendid workman and he regrets to have to give him up.

AT the meeting of the city council Thursday night an ordinance was passed ordering that the doors of Walton's Opera House be so arranged as to open outward, or in other words, just the reverse of the way they open now. Railings were also ordered for the steps and we are told that an order for fire escapes at the windows came within a vote or so of going through. An ounce of prevention is worth a pound of cure and the management of the opera house is thankful to the council for its clever suggestions and the change will be made as soon as practicable. Can it be possible that fear of fire has caused such small attendance at theatrical entertainments here of late? If so, Mr. Walton will feel more than ever thankful to the council for pointing out the trouble and will spare no means in remedying it. In fact he would be almost willing to provide each person who goes to shows here with a fire escape and assist him in using it in case of fire.

SODA three pounds for 10c. at J. T. Jones.

HOLTZCLAW - The wife of John Holtzclaw, of the Preachersville section, died suddenly Sunday.

AN item in our last issue caused some to think we were going to lose Rev. R. B. Mahony, but we are glad to say we are not. It was a mention of Rev. W. J. Mahony's giving up his pastorate at Carlisle and going to Vicksburg, Miss.

AN enthusiastic meeting of citizens was held at Harrodsburg Saturday looking to the organization of an old fashioned county fair to be held there this summer. A large sum of money was subscribed and there seems little doubt that a sum sufficient to insure the success of the venture will be raised. Several committees were appointed to solicit stock and a thorough canvass of the county will be made.

DYE NEWS.—There was a social at Dave Tombs Friday night which was very much enjoyed by the young folks of this place. The 13-year-old son of C. R. Carson died from the effects of a horse kick he received three weeks ago. Mr. Carson has the sympathy of this vicinity. His son was a bright and popular boy. His funeral was preached Wednesday by Rev. Montgomery at Green River and his body was interred in the Middleburg cemetery. O. B. Estes is on the sick list. Miss Lucy Davis is sick. Mr. James Estes, our merchant, fell off of his wagon and sprained his ankle very badly. He can hardly wait on his customers now. J. R. Wilson is going to build a store house for a general line of goods, which is very badly needed at this place. D. R. Brown is on the sick list.

Dr. W. T. Ellis, pastor of the Vine Street Christian church, has received and accepted a call to the Christian church of Cynthiana. In speaking of him the Nashville American says: "Dr. Ellis is a scholar of rare ability, a preacher of earnestness and eloquence, and a pastor of unequalled popularity. When he came to Nashville he found a large debt resting on the church and now leaves it free of debt and wonderfully strong spiritually. Dr. Ellis was chaplain of the State Senate for the first three months of the last session and in that capacity made warm friends of every member of that body, as well as of the State officials with whom he came in contact. Socially Dr. Ellis is one of the most genial of men and he has during his stay in Nashville made many friends who will always cherish for him the kindest feelings and who will wish for him in his new pastorate that success which his merit and talent richly deserve."

A Very Close Call.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman, of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life strength and vigor from their use. Try them. Satisfaction guaranteed by Penny Price 50 cents.
